Compensation Discussion and Analysis

About Innovate BC

The Innovate BC encourages development and application of advanced or innovative technology to meet the needs of industry in British Columbia including the implementation, administration and funding of programs. Innovate BC delivers programs and initiatives that promote company growth - resulting in jobs, increased revenue and economic development in BC.

Compensation Philosophy

Innovate BC believes in remunerating its staff comparable to what is offered by similar organizations. To remain competitive, and in order to retain and attract the best talent, Innovate BC has implemented a compensation plan to rationalize the compensation levels of current staff and standardize compensation for future placements.

The following core principles guide compensation at Innovate BC:

- **Performance and Differentiation** – Compensation programs support and promote a performance-based (merit) organizational culture. Differentiation of salary is supported where there are differences in the scope of the position within an organization, and/or due to superior individual team contributions.
- **Accountability and Transparency** – Compensation decisions are objective and based upon a clear and well documented business rationale that demonstrates the appropriate expenditure of public funds. Compensation programs are designed, managed and communicated in a manner that ensures the program is clearly understood by employees and the public while protecting individual personal information.

Executive Compensation and Benefits

The Board and Compensation Committee determine the executive compensation within the guidelines provided by PSEC, and they play leadership roles in the development of the total compensation philosophy for the executive team.
